Color

Gloss

Texture

Keep fresh feeling at hair salon

• • • The birth of hair-color keeping agent • • •

A few weeks after you dyed your hair, does your ideal image match the reality?

If you don't,

Try Protesil LH which gives you magical power.

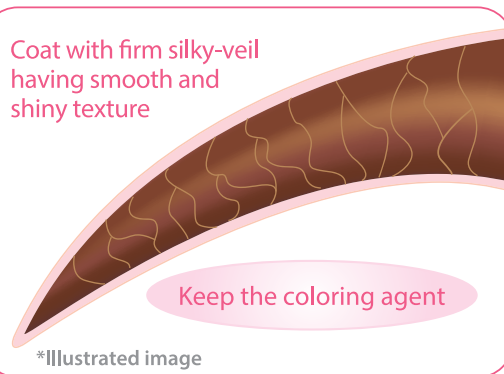

Don't forget Protesil LH for daily care after hair coloring.

Protesil LH is a natural hybrid polymer made from the derivative of silk peptide.

It coats whole surface of coloring hair with firm silky-veil having smooth and shiny texture, and keep the color components inside hair with minimum damages.

It leads your hair to ideal beautiful hair with extra-special "color", "gloss" and "texture".

Coat with firm silky-veil having smooth and shiny texture
