getting more safe and attractive to hair.**

Is it only skin that damaged by ultraviolet rays?

Have you ever felt that  
“the luster of hair getting weak”  
or “the color of dyed hair getting easy to fade out”  
when sunlight is strong?

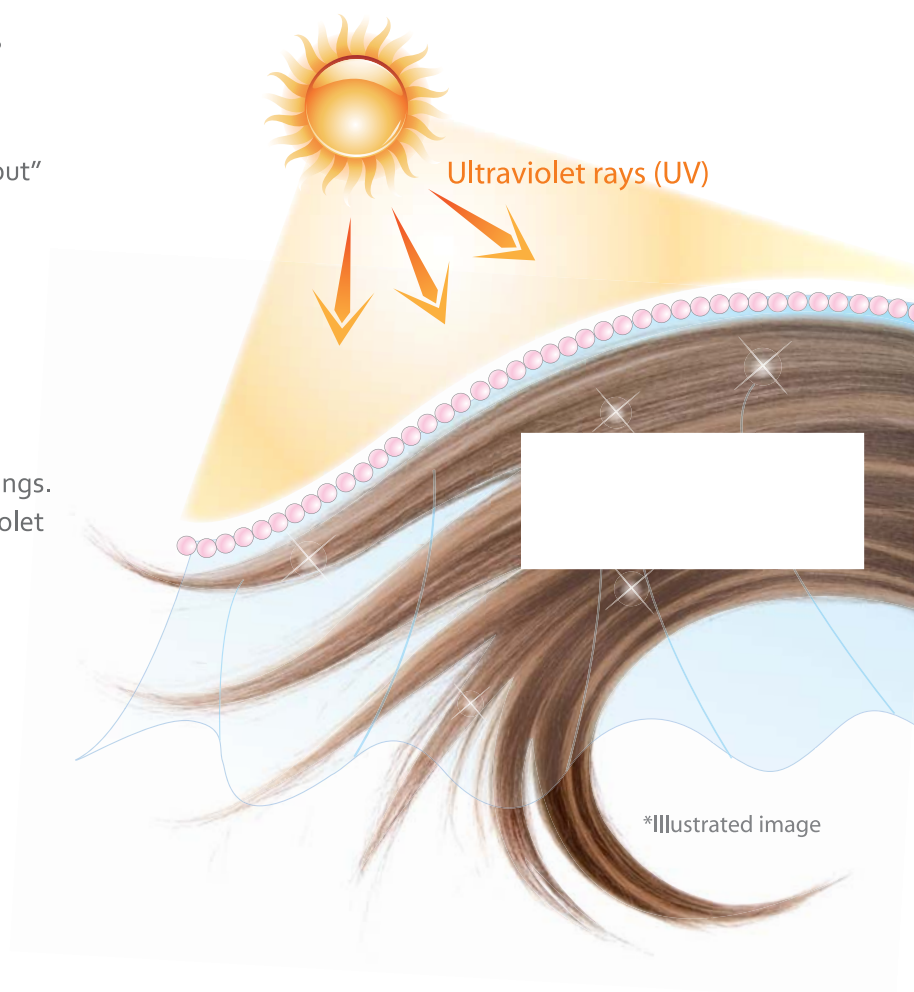

It’  
damage exposed and vulnerable hair.

### Protect hair from ultraviolet rays.

It’  
hair beautiful even easy to overlook.

Sometimes UV absorber presents oily bad feelings.  
Although **Silasoma** significantly cuts ultraviolet  
rays as well as UV absorber,  
**it presents silky and light feelings.**
